To help your first visit go smoothly here is what you can expect during approximately the next 45-75 minutes:

- 1. Paperwork** Give your forms to the receptionist when you have completed them. The doctor will use this information to learn about your present health status. **If this visit is regarding an auto accident, a work injury or managed care please let us know, additional forms may be required.** Also take a moment to review and sign our financial policy.
- 2. Consultation** You will meet the doctor, who will review your paperwork and discuss your health history and your present complaint. You will be advised of the cost of any office procedure.
- 3. Examination** A complete examination, including any necessary X-rays, will be performed. Afterwards the doctor will review the results and determine if Chiropractic can help you. When appropriate, you will be referred to other health care professionals.
- 4. Initial Treatment** If you are currently in pain, initial pain relief treatment will begin on your first visit. This may consist of any of the following  
  
Chiropractic Adjustment - The doctor will use a carefully directed and controlled pressure to begin restoring normal motion and position to the movable bones of your spine. You may feel or hear a slight pop or snap, which is due to joint movement.  
  
Additional Therapy Procedures such as heat, ice, traction, electrical therapy, ultrasound, and diathermy. These procedures are helpful to reduce the pain, spasm, inflammation, or stiffness you may have.
- 5. Home Therapy** The doctor may suggest home use of ice, heat, or stretching exercises, nutritional supplements, and orthopedic supports to reduce your discomfort.
- 6. Future Visits** On your next visit plan to spend 30 - 45 minutes to receive the doctor's report of findings and additional treatment. You are always welcome to bring any family members or friends along so they can learn about your condition.

**We hope this information will help to make your first visit more pleasant. If you have any questions don't hesitate to ask. If you were referred by one of our patients let them know we appreciate it. After you have read this form please initial here. \_\_\_\_\_**
