

NEW PATIENT PEDIATRIC APPLICATION FORM

Dear Parents,

Congratulations on taking this very important step towards improving your child's health potential. We are honored that you have placed your trust in our practice to help care for your child. Our doctors have had the privilege to serve many children and families. We have worked closely with local Pediatricians and are happy to reach out to yours, upon request, to explain what we find as well as our treatment plan. The Michaux Family Chiropractic concept offers you more...

Michaux Family Chiropractic creates amazing individual health which in turn impacts the whole family allowing them to achieve their goals with joy, love, faith and enthusiasm. Michaux Family Chiropractic offers a collaboration of multiple healing techniques that produces a greater level of health.

The following information will help discover your child's specific needs and allow us to fully address the root cause of their condition. We work as a team, using many different healing techniques to help you add life to all of their years.

Our New Patient process typically takes two visits. Your child's first visit allows us to thoroughly listen to your needs and concerns and carefully evaluate your child's spine and nervous system. We offer on-site x-ray technology, and only perform x-rays on children if they are medically necessary. We are sensitive about x-ray testing. Your child's follow up consultation will be one of the most important visits your child will have here at Michaux Family Chiropractic as we will outline for you and your family your child's results and recommended action plan. Your child may also begin their care here on their second visit. We value you and your desire to gain optimal health. We promise to take the time to listen to you and your child and make this experience an enjoyable one.

Welcome to the MFC Family!

PEDIATRIC APPLICATION

Today's Date: _____

FULL LEGAL NAME (Last, First, Middle Initial): _____

Dear Parent,

It is a pleasure to welcome you to our family of happy and healthy Chiropractic patients. Please let us know if there is any way we can make you and your family feel more comfortable. To help serve your child better, please complete the following information in order for us to focus on discovering the cause of your child's health concerns.

The human body is designed to be healthy. The primary system on the body which coordinates health is the Central Nervous System. The healthy function of every cell, every system, and every organ is dependent upon the integrity of the Central Nervous System. The bones of the skull and the vertebrae of the spine, house and protect the Central Nervous System. From the birth process until the present, events have occurred in your child's life which may have caused interference and damage to this delicate system. Physical, emotional and chemical stresses, which our common in our contemporary lifestyles, can result in misalignment and damage to the spinal column. This interference is called Vertebral Subluxation Complex.

This form will help reveal the causes of the Vertebral Subluxation which interfere with the optimal function of your child's nervous system and therefore impair your child's health potential.

Child's Name: _____ Date of Birth: _____ Sex: Male/Female

Names of Parents/Guardians: _____

VERTEBRAL SUBLUXATION ASSESSMENT

1. Purpose for contacting us? _____

2. Other Doctors seen for this condition (please include Doctor's name and prior treatments):

3. Any other health problems? _____

4. Check any of the following conditions that your child has suffered from:

- Colic Night sweats Seizures Tantrums Headaches
- Allergies Asthma Bed wetting Poor digestion Fevers
- Ear Infections Learning disorders ADD/ADHD Repeated infections/colds

5. Family History: _____

6. Previous Chiropractor's Name: _____ Date of last visit: _____

Reason for care: _____

7. Name of Pediatrician: _____ Date of last visit: _____

Reason for care: _____

PRENATAL AND PAST HEALTH HISTORY

1. Name of Obstetrician/Midwife: _____
2. Experts around the world agree, intervention during the birth process may cause neurological trauma, damage and even death. According to the World Health Organization, children in twenty-two other countries have a greater survival rate than in the United States.
 - a. Did the child's mother have an ultrasound during this pregnancy? Yes No How many? _____
 - b. Place of Birth: Home Hospital Birthing Center
 - c. Type of Birth: Vaginal Induced Labor Planned C-Section Emergency C-Section
 - d. Medications during pregnancy: _____
 - e. Medications during delivery: _____
 - f. Alcohol/Tobacco use during pregnancy? Yes No
 - g. What position did the mother deliver in? _____
 - h. Birth Trauma: Twisting Pulling Vacuum Extraction Forceps
 - i. Newborn Trauma (medical procedures): _____
3. Repeated studies are informing us that breast feeding develops strong and healthy immune, neurological and digestive systems.
 - a. Was your child breast fed? Yes No How long? _____
 - b. Was your decision supported by your health care provider? Yes No
 - c. Was your child formula fed? Yes No How long? _____
 - d. Introduced to solids at _____ months
 - e. Food/Juice Allergies or Intolerances? Yes No Please list: _____
4. According to the National Safety Counsel, approximately 50% of infants have fallen onto their heads in their first years of life. Another study revealed that 250,000 children are injured at playgrounds annually. Can you recall such jolts, falls or traumas to your child? _____

5. Which of the following high impact sports does your child play? _____
6. Has your child even been in a car accident? Yes No Describe _____
7. Has your child ever been seen on an emergency basis? Yes No Describe _____

8. Prior Surgeries: _____
9. Other than five hours per day sitting in a classroom, does your child spend prolonged time sitting?
 Yes No If Yes: In front of a computer Television/Video Games
10. How would you rate your child's diet? _____
11. Number of doses of Antibiotics your child has taken:
- a. During the past 6 months: _____
 - b. During his/her lifetime: _____
12. Number of doses of other prescription or OTC medications your child has taken:
- a. During the past 6 months: _____
 - b. During his/her lifetime: _____
 - c. List: _____
13. The child's immune system, like all other developing systems of the body, is both intricate and delicate. It strives for a state of homeostasis and balance in the body. Long term effects from interfering with this process with artificial vaccinations are being uncovered. Were you adequately informed of the risks of vaccinating your child? Yes No
- Did your child experience any behavioral, emotional or physical changes after any vaccination?
 Yes No Please describe: _____
14. Chronic postures from either the parent or your child can be an indicator of stress on your child's nervous system.
- a. Do you, now or in the past, hold your child on only one hip or arm?
 - b. If the crib was along a wall, was the child placed in opposite sides of bed to prevent chronic one-sided head rotation to see his/her parents? Yes No
 - c. Have you noticed any head tilting that was more dominant on one side (while in a car seat, changing diapers, or laying down)? Yes No Describe: _____

Medication Information: Please list any medications that you are currently taking or provide us with a list of current medications. Not Currently Prescribed Any Medications See Attached List of Medications

Name of Medication:	Reason for taking this medication?	Dosage Information:	What form of medication is this?	How often do you take this medication?

Any medication allergies?: Yes No If yes, please list them: _____

Primary Insurance Information: Insurance Company Name: _____

Phone Number: _____ Are you the primary insured on this policy? Yes / No

If you are not the primary insured, please provide the following information:

Name of Guarantor: _____ Guarantor's Date of Birth: _____

Relationship of Patient to the Guarantor: _____

TERMS OF ACCEPTANCE AND CONSENT FOR CARE

THIS DOCUMENT CONSTITUTES INFORMED CONSENT FOR CHIROPRACTIC CARE

Our office has one goal, to aid the patient in achieving optimal health as quickly and safely as possible, through the removal of interference in the body’s ability to heal. We do this through safe and gentle chiropractic care.

We will attempt to identify and diagnose any ailments that the patient may have that may be corrected through chiropractic care, massage therapy, and/or active or passive rehabilitation techniques. If any condition or disease that is out of our scope of practice is found to be present, we will refer the patient to an appropriate physician to diagnose and/or treat that condition.

Our primary focus is the detection and correction of vertebral subluxation. This is the misalignment of one or more spinal bones that can cause interference to the nervous system. Any interference to the nervous system may or may not cause a variety of differing symptoms. Again, our focus is to correct the cause of the interference, not the symptoms themselves.

Vertebral subluxations are brought on by physical, chemical, and/or emotional stress or trauma. Through specific chiropractic adjustments, we reduce and/or correct these subluxations. It is also important to note that the sooner we are able to treat a patient’s subluxation and the associated degenerative processes, the faster and more completely the patient’s body can respond and heal. It may be necessary to perform an examination of the patient each time a new injury or trauma occurs, and often additional x-rays and/or imaging may be medically necessary to maintain the utmost safety when dealing with the patient’s body. The risks of chiropractic care, massage therapy, and active or passive rehabilitation are minimal when dealing with a licensed professional; however, if you have concerns about these risks, please discuss them with the doctor prior to the examination and/or treatment session.

I have read and fully understand the statements and terms listed above. I hereby give consent to MICHAUX FAMILY CHIROPRACTIC to evaluate me to determine my condition and treat me for such condition. I also understand that I may, at anytime, discontinue care with the examination, x-rays, and/or any treatment or therapies if I choose.

PATIENT CONSENT FOR USE AND DISCLOSURE OF PROTECTED HEALTH INFORMATION

I hereby give my consent for MICHAUX FAMILY CHIROPRACTIC (hereinafter referred to as the PRACTICE) to use and disclose protect health information (PHI) about me to carry out treatment, payment, and healthcare operations (TPO). The PRACTICE’s Notice of Privacy Practices provides a more complete description of such uses and disclosures.

I have the right to review the Notice of Privacy Practices prior to signing this consent. The PRACTICE reserves the right to revise its Notice of Privacy Practices at any time. A revised Notice of Privacy Practices may be obtained by forwarding a written request to:

Dr. Kurtis D. Michaux, D.C., Privacy Officer, 4347 South US Highway 27, Clermont, FL 34711

With this consent, the PRACTICE may call my home or other alternative locations and leave a voicemail message or speak to me in person in reference to any items that may assist the PRACTICE in carrying out TPO, such as appointment reminders, insurance questions, and any calls pertaining to my clinical care, including but not limited to, laboratory and imaging results.

With this consent, the PRACTICE may mail to my home or alternative locations any items that assist the PRACTICE in carrying out TPO such as appointment reminder cards and patient statements as long as they are marked PERSONAL AND CONFIDENTIAL.

With this consent, the PRACTICE may e-mail to my home or alternative locations any items that assist the PRACTICE in carrying out TPO such as appointment reminders, updates to office hours, or patient statements. I have the right to request that the PRACTICE restrict how it uses or discloses my PHI to carry out TPO. However, the PRACTICE is not required to agree to my requested restrictions. If the PRACTICE does agree to my restrictions it is bound to this agreement.

By signing below, I am consenting to the PRACTICE’s use and disclosure of my PHI to carry out TPO. I may revoke my consent in writing, except to the extent that the PRACTICE has already made disclosures in reliance upon my prior consent.

If I do not sign this consent, or later revoke it, the PRACTICE may decline to provide treatment to me.
